

Decisions taken by the Communicable Diseases High Committee convened on 11<sup>st</sup> November 2021 within the scope of the 45/2018 Communicable Diseases Law

- Criminal proceedings will be launched in accordance with Article 43 (6) of the Communicable Diseases Law 45/2018 in the case of non-compliance with the rules decided by the Communicable Diseases High Committee and listed below.
- The rules to be implemented will be overseen by the District Police Boards, municipalities and the Police General Directorate.

## **DECISIONS**

### **ENTRY TO THE COUNTRY**

**1. People coming to our country by sea-air routes and those coming from outside the island who enter by using the land border gates must fill in their digital travel documents and set up their records as stated below before travelling.**

**To create a Digital Travel Document:**

- **Download the Stay Safe application from Apple Store or Android Market to your smart devices, then create a Digital Travel Document from within the application.**
- **Those who do not have a smart device must fill out the Digital Travel Document at [www.guvendekalkktc.com](http://www.guvendekalkktc.com). They must keep the completed form with them when they enter the country, either digitally or as a printout.**

**People who will enter our country and who do not need to go into quarantine according to the country entry criteria, will create a Digital Travel Document from the “Travel Code Transactions” section of the “Stay Safe Application”.**

**People who do have to go into quarantine according to the country entry criteria and who can provide an address in our country, will create a Digital Travel Document from the “Wristband Transactions” section of the “Stay Safe Application”(except those under 12 years old).**

**People who do not provide an address of residence in our country and who will stay in central quarantine in designated central quarantine hotels according to the colour codes of the country they come from (5-14 days) will create a Digital Travel Document from the “Travel Code Transactions” section of the “Stay Safe Application”.**

**Citizens of the Republic of Turkey can upload their HES codes, vaccination documents and PCR test results to the Digital Travel Document.**

**People who will enter the country can save their vaccination documents and PCR test results by using the cameras of their devices to scan the QR code on the vaccination documents and PCR test results with the QR reader in the application.**

**Passengers must keep the uploaded PCR and vaccine information with them digitally or as a printout, as they will be checked upon entry to the TRNC.**

**Creating a Digital Travel Document will be required for people aged 6 years and over.**

**Wristbands are not fitted to people under 12 years of age for the purpose of quarantine. People who will enter quarantine will go to their stipulated address of residence, with their own vehicles either alone or accompanied by a driver. People who do not comply with the quarantine rules at their address of residence will be sent to central quarantine and will pay the quarantine fees themselves.**

**Note: Until 15/11/2021, people who will enter our country using air-sea routes from outside the island by using the land border gates will be able to enter by filling in the TRNC Passenger Entry Form at [adapass.gov.ct.tr](https://adapass.gov.ct.tr) before travelling.**

### **1. A) COUNTRY COLOURS**

The entry criteria to the country from overseas will be as stated below. The country colours stated in the criteria will be updated every week.

- The latest table regarding country colour codes and entry criteria will take effect from the first Monday after they have been published by our committee.

KOYU KIRMIZI (DARK RED)			KIRMIZI (RED)			TURUNCU (ORANGE)			YEŞİL (GREEN)

## **1 B) RULES TO BE APPLIED ACCORDING TO COUNTRY CODES**

### **DARK RED;**

- People who have travelled to these countries in the last 14 days regardless of whether or not they have been vaccinated;
  - o Pre-departure negative PCR result from the last 72 hours.
  - o 10 days quarantine

Covid-19 tests will be performed at all entry gates on people coming from these countries regardless of whether or not they have been vaccinated.

### **RED;**

- **VACCINATED or HAVE HAD THE DISEASE;**
  - Pre-departure negative PCR result from the last 72 hours.
- **UNVACCINATED;**
  - Pre-departure negative PCR result from the last 72 hours.
  - 7 days quarantine.

Covid-19 tests will be performed at all entry gates on people coming from these countries regardless of whether or not they have been vaccinated.

### **ORANGE;**

- **VACCINATED or HAVE HAD THE DISEASE;**
  - Pre-departure negative PCR result from the last 72 hours.
  - Quarantine-free entry
- **If people come to our country without submitting a negative PCR test from the last 72 hours, PCR/Antigen tests will be performed on these people upon entry to the country.**
- **UNVACCINATED;**
  - Pre-departure negative PCR result from the last 72 hours.
  - 5 days quarantine.

Covid-19 tests will be performed at all entry gates on unvaccinated people coming from these countries.

### **GREEN;**

- **VACCINATED or HAVE HAD THE DISEASE;**
  - No restrictions.
- **UNVACCINATED;**
  - Pre-departure negative PCR result from the last 72 hours.
  - **If people come to our country without submitting a negative PCR test from the last 72 hours, PCR/Antigen tests will be performed on these people upon entry to the country.**
  - Quarantine-free entry.

Covid-19 tests will not be performed at the gates on people coming from these countries.

## **1 C) GENERAL RULES;**

• **VACCINATED PEOPLE: Who have completed the vaccination programme. From 14 days after the last dose.**

- o SINOVAC: 2 DOSES
- o BIONTECH: 2 DOSES
- o SINOPHARM: 2 DOSES
- o COMIRNATY (Pfizer/Biontech): 2 DOSES
- o VAXZEVRIA (Astrazeneca/Oxford): 2 DOSES
- o COVID-19 Vaccine Janssen / Johnson and Johnson: 1 DOSE
- o SPUTNIK V: 2 DOSES
- o MODERNA: 2 DOSES

• People who have had two doses of a vaccine different from the vaccines mentioned above will be considered as vaccinated.

• People who have had the Covid-19 disease and received 1 dose of vaccine will be considered as vaccinated.

• **People who have had the disease:** Submit a positive PCR test result taken between 30-180 days prior to travel. These people will be evaluated as vaccinated people.

• Children under the age of 18 will be able to enter the country with parents who are vaccinated or who have had the disease as stated above based on the category of the country they have travelled from and in accordance with the PCR test rules (children who are 6 years old and over).

• Passengers will be evaluated based on the country that is in the highest risk group among the countries they have set foot in/ been in, in the last 10 days.

## **INLAND BORDER CROSSING RULES**

**1. Based on the results of the epidemiological assessment within the island, Level 2 rules will be applied at the crossings.**

• **Level 1 :** No tests, no restrictions (A total of 0-74/100,000 people in 14 days)

• **Level 2 :** No tests for vaccinated people, negative Antigen or PCR test once every 72 hours for unvaccinated people (A total of 75-499/100,000 people in 14 days)

Unvaccinated students under the age of 18 and people residing in Kato Pyrgos will be able to cross with a 7-day negative rapid antigen test or PCR test.

• **Level 3 :** Double vaccinated people with EMA-approved vaccines, as well as the Sinovac, Sinopharm or Sputnik vaccines, can cross with a 7-day negative rapid antigen test or PCR test, 14 days after their final dose (1st dose if Johnson& Johnson).

Unvaccinated people (including unvaccinated workers and people who will cross for health reasons) can cross with a 72-hour negative rapid antigen test or PCR test.

However, unvaccinated high school students and people residing in Kato

Pyrgos will be able to cross with a 7-day negative rapid antigen test or PCR test. (A total of 500/100,000 people in 14 days)

\*People requesting to come to our country from Orange-Green Colour Category Countries via South Cyprus will be processed according to the country entry criteria stated above in "1 B". However, VACCINATED PEOPLE who will come to our country from Orange Colour Category countries who cannot submit a 72-hour PCR test, will be able to enter our country on the condition that they have a Covid-19 test at the land border gates.

\*People coming from Orange-Green Colour Category countries and staying in South Cyprus for more than 10 days will be processed within the scope of the Inland Border Crossing rules if they wish to cross into our country.

\* The inland border crossing rule will apply to people who have come to South Cyprus, except for those who have come from dark red countries, once they have stayed in South Cyprus for a period of 10 days.

\* On touristic coach tours to be arranged from South Cyprus to our country, unvaccinated tourists from orange countries will be able to cross for the day provided that they present a negative PCR/antigen test conducted within the last 72 hours.

## **ADA (ISLAND) PASS (TO CHECK IF A PERSON HAS COMPLETED THE VACCINE DOSE SERIES OR HAS A COVID-19 TEST RESULT FROM THE LAST 72 HOURS FOR THOSE WHO HAVE NOT HAD THE VACCINE)**

**1. The Adapass check for people who will enter venues/activities/sectors/events will be used in all districts. After registering at [adapass.gov.ct.tr/company/register](https://adapass.gov.ct.tr/company/register), the application will be opened with the business's email address and a password that will be forwarded to them by SMS.**

Those venues/activities/sectors/events specified below who have not registered are required to register at the [adapass.gov.ct.tr/company/register](https://adapass.gov.ct.tr/company/register) website.

Note: Sectors not mentioned below can opt in by registering at the [adapass.gov.ct.tr](https://adapass.gov.ct.tr) address.

**THE VACCINE AND PCR CRITERIA OF PEOPLE WHO WILL ENTER VENUES/SECTORS/ACTIVITIES/EVENTS THAT WILL BE CHECKED WITH THE ADAPASS SYSTEM ARE STATED IN THE TABLE BELOW.**

**• THE ADAPASS CHECK (COMPLETED THE VACCINE DOSE SERIES, OR A COVID-19 TEST RESULT FROM THE LAST 72 HOURS FOR THOSE WHO HAVE NOT HAD THE VACCINE) MUST BE CARRIED OUT AT THE ENTRANCES TO ALL INDOOR AREAS.**

**• PEOPLE WHO HAVE NOT COMPLETED THE VACCINE DOSE SERIES WILL NOT ENTER CASINOS, BARS/CLUBS, INDOOR FITNESS HALLS, STADIUMS, INDOOR TEAM SPORTS AREAS AND NIGHT CLUBS.**

• The Adapass check is mandatory for those aged 12 and above and should be done with an ID card

• The Adapass check can be done with an Adapass card, vaccine card and test result document for the 12-18 age group.

• There must be a responsible person at the entrances of the venues/ activities/ sectors/ events specified above with the aim of actively performing Adpass checks

**People working in the sectors operating in our country and listed below will repeat their antigen tests once every 21 days if they are vaccinated and once every 7 days if they are not vaccinated.**

**TABLE: TESTS THAT SECTOR WORKERS MUST HAVE**

**Note: School staff and special education staff will continue to repeat their antigen tests once every 14 days if they are vaccinated and once every 7 days if they are not vaccinated.**

One person per 3m<sup>2</sup> will be allowed in indoor areas in all businesses. In order to ensure social distancing, these businesses must place signs at the entrances of their businesses stating the m<sup>2</sup> area and the total number of people who can be in the business at any one time, and place markings on the floor accordingly. Hygiene and disinfection conditions must be applied both inside the workplace and at entrances and exits. It is the responsibility of the workplace to take and implement these measures. As for outdoor areas, people will be received so that there is one person per 2m<sup>2</sup>. It is mandatory to wear masks and comply with the social distance rule in all indoor and outdoor areas.

People who have had contact with a Covid-19 positive person as stated in Annex 3 will be subject to quarantine. If the PCR test result to be obtained from the contacts are negative, the isolation period will be ended at the end of 10 days for unvaccinated people, and at the end of 7 days for double vaccinated people. The wristband quarantine process of contacts will be determined by the contact team according to the conditions stated in Annex-3. People who are not recorded as a contact in the Contact Tracing Team database will not be legally accepted as a contact and thus an official document stating that they are a contact will not be issued to such people. Covid-19 positive people will be able to spend their quarantine period at their home with a wristband according to the conditions set out in Annex 4, if it is deemed appropriate.

## **PRIMARY AND SECONDARY EDUCATION RULES**

1. When the studies and guides are examined, it is deemed appropriate to open the special education, pre-school, primary and secondary education

2021-2022 Academic Year on a full-time basis within the scope of the measures listed below.

Each school is responsible for setting up a “School Pandemic Committee”. This committee will work in coordination with the Ministry of Health and will consist of at least 2 people. (2 people for up to 250 students, and +1 person for every 250-plus students.) The contact details of the responsible person of the committee formed should be forwarded to the Ministry of Health. The Communicable Diseases High Committee will hold meetings with Pandemic Committee representatives determined by the National Education and Culture Ministry to assess the situation at least once a month.

### **A) Transportation**

- Students, drivers and supervisors will wear masks on school buses.
- Hand sanitiser will be available at the entrance to school buses.
- Supervisors on school buses will ask students about symptoms. Students with symptoms such as a fever, sore throat, cough, etc., will not be allowed on the bus.
- School pandemic committees will be responsible for the disinfection of transport vehicles and the follow-up and inspection of other transport-related measures.
- Students who are taken to school buses will be seated in the same seat every day.
- Transportation companies and pandemic committees will be responsible for implementing these rules

### **B) Mask**

- It is mandatory for all school staff (including transport staff) to wear masks.
- Students aged 6 and over will be required to wear masks. It is recommended that students aged 2-6 wear masks in the classroom and in indoor areas.
- Training on the use of masks will be provided by the School Pandemic Committees.
- Students who wear fabric masks are required to wash their masks every day.

### **C) Entry-Exit**

- Attendants will be determined by the school management or the School Pandemic Committees to avoid congestion at school entrances and exits. Entry and exit will be provided by observing social distance.

### **D) The classroom**

- Those who work in the classroom and students aged 6 and over are required to wear a mask. It is recommended that pupils aged between 2-6 wear a mask.
- Social distancing must be maintained as much as possible in the classroom (particularly in classes for pupils aged between 2-6).

- Classrooms must be ventilated and disinfection rules must be followed.
- Classroom teachers will ask students about symptoms such as a fever, cough, sore throat, etc. at the classroom entrance. Students with symptoms will be sent home.

### **E) Disinfection**

- Training on hand disinfection will be provided by School Pandemic Committees.
- Hand sanitiser should be placed in areas deemed appropriate by the school administration (canteen, dining hall, etc.).
- The disinfection procedures specified in the booklet prepared by the Ministry of National Education and Culture must be followed.
- Disinfection within the school will be inspected by the School Pandemic Committees.

### **F) Break times**

- Classes should take turns for breaks in order to prevent crowding during break times.
- The necessary arrangements should be made by the school administration in order to prevent crowding in the canteens.
- Classes should rotate their meal times in order to prevent crowding in the dining halls.

### **G) Common Use Areas**

- Toilets in the school will be disinfected frequently.
- Masks will always be worn in the teachers' room, which is used as a common use area, and the social distance rule will be observed.
- The teachers' room, which is used as a common area, needs to be ventilated and disinfected frequently.
- School Pandemic Committees will be responsible for the supervision of common areas within the school.

### **H) Events**

- If there is any collective activity in a school, mask and social distance rules will be observed. These activities will be carried out by minimising the interaction between classes.

### **I) Illness**

- Parents should be warned not to send children with symptoms such as a cough, loss of taste and smell, sore throat, etc., to school.

### **J) Covid-19 Positive Patient and Contact**

- The follow-up of Covid-19 positive patients and contacts will be managed in consultation with the School Pandemic Committees established in each school and the Ministry of Health contact team.

### **K) Tests**

- People working at schools will repeat their antigen tests once every 14 days if they are vaccinated (for screening purposes), and once every 7 days if they are unvaccinated.
- Screening tests are not mandatory for primary and pre-school students.

However, an antigen test will be requested from a parent who lives in the same home as these students once every 21 days if they are vaccinated, and once every 7 days if they are not vaccinated.

- Students from the 6th grade onwards (6th grade classes included) will repeat their antigen tests once every 7 days.
- Random tests will be conducted by the Ministry of Health on school staff and students.

Apprentices will also be subject to the rules applied in the workplace where they will receive their education.

1. Higher Education Institutions will be opened within the framework of the plan and programme to be made by the Ministry of National Education and Culture. Each university will establish its own School Pandemic Committee. Students coming from abroad will be able to enter based on the specified country entry criteria.

Higher Education Institutions will set up Pandemic Commissions. These commissions, provided that they take into account the mask, distance and hygiene rules, will create and implement pandemic action plans within the framework of the criteria determined by the National Education and Culture Ministry.

People who will come from Dark Red Countries with a student certificate to be notified by the National Education and Culture Ministry or to register as a new student will be able to enter the country on the condition they spend 14 days in quarantine.

It has been deemed appropriate to conduct national/international exams to be held in our country under the conditions stated below:

- Examinees and invigilators must have negative antigen tests from within the last 72 hours.
- Doors and windows must be kept open at all times in order to ventilate the exam area,
- Those entering the exam area must use personal protective equipment during the exam,
- Desks in the exam area must be arranged to comply with social distancing rules
- Disinfectant must be placed at the entrance to the exam area.

1. Schools' Positive Case and Contact Protocol

- Symptoms must be checked before leaving home, boarding a bus and entering school. Those who show symptoms (teachers, workers or students) will not be allowed into schools. They will be directed to take a test.
- If a student in the class shows symptoms, the student will be directed to take a test. If their test result is negative, they will return to school.
- If the student's test result is positive; all students in the class and teachers who have entered that class are sent home on the same day if possible, or on the next day, to have PCR test screening, and are sent home to be isolated at home until their test result comes out. The school pandemic

board will forward the class list to its contact team

- School pandemic committees, administrators and headteachers are not authorised to close classrooms.
- If the PCR tests of 3 or more people from the same class are positive as a result of the screening in the classroom, the rest of the class will be considered close contacts and will be isolated at home for 7 days if vaccinated, 10 days if not vaccinated. Students will continue with their education in the form of distance education for the period they are close contacts.
- Students will be able to return to school with a negative PCR test result at the end of the 7-10 day isolation period. During this process, people cannot individually decide whether they are close or distant contacts. The Ministry of Health's CONTACT TRACKING UNIT will decide on close contact or contact, and this will be reported to the class through the school administration or the school pandemic committee in line with the decision to be given.
- If at the end of the screening fewer than 3 people in the class have a positive PCR, the positive people and the close contacts determined by the Contact Tracking Unit will be sent to isolation and the rest of the class will continue their education at school by wearing masks and not coming into contact with other classes.
- If a teacher's PCR test is positive, the close contacts determined by the Contact Tracking Unit will be directed to take a PCR test.
- Contacts showing symptoms of Covid-19 during isolation will report the situation to 1102.

## **SPORT**

1. Swimming pools can be used by performance swimmers of sports clubs, training of licenced swimmers, competitions and by disabled individuals for rehabilitation purposes. People working in swimming pools must wear masks. It has been deemed appropriate for outdoor swimming pools to operate within the scope of the rules specified in Annex-1. It has been deemed appropriate for beaches to operate within the scope of the rules specified in Annex-2.

Indoor sports halls (fitness, individual) can continue their activities by being regularly ventilated and observing the social distancing and hygiene rules. Only vaccinated people will be allowed into indoor sports halls (gyms). Staff are required to wear masks at all times.

For competitions to be held in outdoor areas, spectators will be accepted within the scope of social distancing rules, and for competitions to be held in indoor areas, a maximum of one-third of the area will be used.

## **TRANSPORTATION**

1. Passengers will not be allowed to sit next to the drivers of buses, minibuses, taxis with "T permits", touristic minibuses and permitted similar

public transport vehicles. In buses, shared taxis and minibuses, passengers will be transported with a seating arrangement that leaves the seat behind the driver's seat empty.

Vaccinated people (including those who have had their first dose but whose time for their second dose has not yet come) aged 12 and over who use public transport will present their Adapass/vaccine card before travelling. Unvaccinated people will present a PCR/antigen test from the last 72 hours. Vehicles must be ventilated during and after journeys. The driver and passengers in the vehicle will wear masks. Vehicles will be disinfected after each journey.

It has been deemed necessary to accept passengers on sea journeys to our country with a maximum of 4 journeys per day and 350 people (excluding soldiers) per journey.

Truck drivers entering the country from our ports (Girne and Gazimağusa) for the shipment of goods can enter daily, provided that they submit a PCR test they have performed in the last 72 hours. If the test period of the lorry drivers exceeds the last 72 hours, then they will be able to enter with a negative antigen test to be conducted at the ports of entry. In addition, passengers can enter via both ports according to the overseas entry criteria in Decision 1.

If the test period of double-vaccinated flight crew members on duty on planes who come to our country by air exceeds 72 hours, then they will be able to enter on the condition that their antigen tests to be performed at the airport are negative.

## **TOURISM**

People who will enter to stay in a hotel and/or benefit from a hotel's activities must have a negative PCR or antigen test conducted within the last 72 hours if they are unvaccinated. It has been deemed appropriate to provide service in hotel restaurants with a distance of 2 metres between tables and to serve at the table, and for staff to provide food and beverage (including tea and coffee machines, dispensers) service when an open buffet is required and for disposable plastic materials to be used during the provision of services.

People entering casinos are required to be vaccinated. Masks will be worn and social distancing rules observed during the time spent in the hall. Unvaccinated customers will not be accepted.

## **SECTORS**

A maximum of one third of the indoor areas of restaurants, patisseries, cafes, taverns coffee shops, coffee houses, cafeterias and clubhouses will be used. Tables must be placed 2 metres apart.

The bistro tables of bars and clubs will be placed 2 metres apart. The number of people allowed in the outdoor areas at any one time will be determined so that there is one person per 2m<sup>2</sup>, and one person per 3m<sup>2</sup> for indoor areas. Unvaccinated people will not be allowed in.

People who enter internet cafes will be registered and will only be able to use the computers for a maximum of 2 hours.

One third of the indoor areas of betting shops will be able to be operated. Food will not be served at betting shops.

People who will work in night clubs will be evaluated upon entry according to the criteria of the country they have arrived from. Unvaccinated people will not be allowed into night clubs.

People who will enter our country for IVF treatment will be dealt with according the entry criteria stated in Point 1 and Point 2. People who are planning to go from quarantine hotels to IVF centres for treatment will be taken from the quarantine hotel for 3-4 hours with negative PCR or antigen test results from the last 72 hours, and then taken back to the quarantine hotel after treatment. The responsibility for the person taken from the quarantine hotel will belong entirely to the Responsible Manager of the IVF Centre. The letter of undertaking prepared for each person to be taken from the quarantine hotels to the IVF centre will be signed by the Responsible Manager and these forms will be submitted to the Ministry of Health Coordination Board when applying for a treatment permit.

## **ENTERTAINMENT/EVENTS**

If engagements, weddings, wedding ceremonies, circumcision ceremonies, and pre-wedding parties are held outdoors then guests will be accepted so that there is one person per 2m<sup>2</sup>, and if they are held indoors one person per 3m<sup>2</sup>.

- The ceremony owners and first degree relatives will have PCR tests within 48 hours before the date of the wedding.
- Masks will be worn at the ceremonies and parties, seating will be arranged by observing the social distancing rule, there will be no congratulations, and jewellery – money will be deposited into a chest. Close-distance games, dances and halay dances that would breach social distancing will not be performed.

People will be allowed into group dances, ceremonies, music, concerts, demonstrations, rallies, tombola, congresses, and similar shows and events so that there is one person per 2m<sup>2</sup> in outdoor areas and one person per 3m<sup>2</sup> in indoor areas. The number of people determined that can be in the area at any one time will be allowed in.

People will be allowed into cinemas, indoor concerts and theatres on the basis that half of the auditorium is used and that there is no eating and drinking in the auditoriums. People working in these sectors must wear masks.

## **OTHER**

Mass worshipping will be held in accordance with social distancing, mask and hygiene rules and using a maximum of one-third of the indoor area to be worshipped in.

Worker accommodation must be places that are socially distanced and

well-ventilated within the scope of pandemic rules. Maximum attention must be paid to social distancing and hygiene rules in communal areas.
