THE MINISTRY OF HEALTH

**Decisions taken by the Communicable Diseases High Committee meeting under the
Communicable Diseases Law 45/2018**

WEEKLY COVID-19 DATA TABLES (09.06.2022)

COMPARISON TABLE			
	31.05.2022	7.06.2022	Change
Total number of cases	236	279	18.22%
Number of local cases	236	279	18.22%
Cases from abroad	0	0	0.00%
Number of cases per 100,000	61.78	73.04	18.23%
Local cases per 100,000	61.78	73.04	18.23%
Number of tests	36,578	9,930	-72.85%
Test positivity rate	0.65%	2.81%	332.31%
Being treated in hospital	5	1	-80.00%
Being treated in intensive care	0	0	0.00%
Intensive care rate	0.00%	0.00%	0.00%
Number of active cases	354	249	-29.66%
Number of cases who passed away	1	0	-100.00%

AVERAGE NUMBER OF DAILY CASES PER 100,000 BY DISTRICT			
	31.05.2022	7.06.2022	Change
TRNC GENERAL	8.8	10.4	18.05%
LEFKOŞA	15.6	18.6	19.23%
GAZİMAĞUSA	4.8	7.3	52.08%
GİRNE	6.5	6.5	0.00%
İSKELE	3.9	1.5	-61.54%
GÜZELYURT	5.4	6.6	22.22%
LEFKE	5.1	8.1	58.82%

DECISIONS

A. DECISIONS REGARDING ENTRY TO THE COUNTRY

1. **From 13.06.2022 onwards until a new decision is taken by our Committee, people will be able to enter the country without the requirement to take a Covid-19 test regardless of whether or not they are vaccinated.**

B. DECISIONS REGARDING INLAND BORDER CROSSINGS

2. People can continue to cross at inland crossings without the requirement of a Covid-19 test.

C. RULES REGARDING MASKS

3. People with upper respiratory tract complaints will use masks in indoor areas and on public transport.
4. Unvaccinated people in the risk group (people over the age of 60, those with underlying lung, kidney and neurological diseases, people who use drugs that suppress the immune system over a long period of time, diabetes patients, HIV patients) will use masks in indoor areas.
5. **People who work in hospitals and health centres, elderly care homes, nursing homes and prisons and people who visit these centres will use masks.**
6. Indoor areas (classrooms, restaurants, gyms, and similar places) need to be ventilated frequently.

D. GENERAL RULES REGARDING TESTS

7. With the proposal of the Laboratory Committee, the Covid-19 tests used in our country (PCR/antigen tests) must have CE-IVD certificates.
8. **People visiting care homes for the elderly and prisons must submit a negative antigen test result from within the last 48 hours or a negative PCR test from within the last 72 hours. People showing symptoms will not be able to visit the specified places, even if their tests are negative.**
9. People with symptoms will first have an antigen test and if the antigen test is positive, a PCR test will be performed. People who have severe symptoms despite their antigen test being negative will be able to have a PCR test at the request of a doctor.

E. DECISIONS REGARDING PEOPLE WHO ARE CONTACTS

10. **People who have been in contact with a Covid-19 positive person will continue with their daily lives by wearing a mask and monitoring their symptoms. These people will have an antigen test done if they show symptoms. If their antigen test is positive then they will have a PCR test done.**

✓ **The Attendance Of A Child At School If There Is A Covid-19 Positive Case In The Family:**

	CHILD	THE COVID-19 POSITIVE INDIVIDUAL LIVING IN THE SAME HOME	SCHOOL ATTENDANCE
VACCINE	FULLY VACCINATED	FULLY VACCINATED	ATTENDS SCHOOL
	FULLY VACCINATED	UNVACCINATED	ATTENDS SCHOOL
	UNVACCINATED	FULLY VACCINATED	ATTENDS SCHOOL
	UNVACCINATED	UNVACCINATED	DOES NOT ATTEND SCHOOL

F. DECISIONS REGARDING COVID-19 POSITIVE PEOPLE

- 11.
- ✓ The isolation process of a person starts after the message that their Covid-19 PCR test result is positive (Day 0).
 - ✓ If a second test is performed by going to another test centre, the result of the second test will not be taken into account.
 - ✓ The isolation period is 7 days without testing. People will be able to continue with their daily lives at the end of the 7th day.
 - ✓ The School Pandemic Boards established in each school and the Ministry of Health contact team will be consulted for the follow-up of Covid-19 positive patients and contacts.
 - ✓ If positive people experience symptoms such as shortness of breath, chest pain and an increase in symptoms (fever, coughing, fatigue, headache, etc.) at home, they can seek help by calling **0533 842 8358**.
- For home quarantine to be applied to Covid-19 positive people, there must be a separate room in a way that there will be no contact with other individuals in the home (house, dormitory, lodgings, etc). If the same bath and toilet is used in the home then these places are disinfected after each use. Disinfection is done with bleach diluted to a rate of 1%. (1 small tea cup of bleach placed into 10 litres of water.)

A Covid-19 positive person placed in home quarantine cannot leave the home during quarantine (they can only leave in the case of an emergency, with the knowledge of the quarantine centre) and absolutely no visitors are allowed into the home where they have been placed in quarantine.

Official documents will not be issued by the Ministry of Health to Covid-19 positive people who do not have any records on the Pandemic Information System.

G. DECISIONS REGARDING VACCINES

12. Vaccinated people can have their booster doses done within 4-6 months.
- People who have had the Covid-19 disease and not been vaccinated at all or who have not completed the vaccination process can get vaccinated 1 month after recovering.
- As for vaccinated people who have had the Covid-19 disease, they can get vaccinated 4-6 months after of recovering.
